

I'm going to talk about someone.

I'm a samurai in the Edo period.

I have an iron fan in my right hand.

I have a bow in my left hand and I wear a hat.

And then I carry a Japanese sword and some arrows.

That's why this outfit is for falconry.

I often came around Koshigaya to do falconry.

Now I am at Jyosanji Temple in Koshigaya.

I visited here during falconry.

I'm the first shogun of the Edo Shogunate.

I am Tokugawa Ieyasu. Nice to meet you!

Thank you for listening.
